

## **Prof. Joseph Quartieri**

### **Short Bio**

Prof. Joseph Quartieri is full professor of Applied Physics in the Engineering Faculty of University of Salerno. Formerly he belonged to the Industrial Eng. Dep.t and now to the Civil Engineering Dep.t of the same University. From 1997-98 up to now, he is the coordinator of all the Physics courses in the Engineering Faculty. From 2006 to 2012 he was also in charge of Medical Physics course at Medicine and Surgery Faculty of University of Salerno and for a few years he was elected in the administration board of the University of Salerno.

He got graduated cum laude in Nuclear Physics at Naples University in 1974. From 1980 to 1986 he worked as researcher at National Research Centre (CNR). From 1980 he took several teaching positions as assistant professor, and in 1985 he became associated professor, in Structure of Matter, at Engineering Faculty of Rome University "Tor Vergata". From 1997 he moved to the Engineering Faculty of Salerno University, where became full professor of Experimental Physics. He got a scientific association with the National Institute for Nuclear Physics (INFN), in the Salerno's group and also worked in the European Organization for Nuclear Research at CERN in Geneva. He is author of hundreds of papers in several relevant international journals.
